PEN AMERICA'S INDEX OF SCHOOL BOOK BANS, 2021-22

PEN America's Index of School Book Bans lists instances where students' access to books in school libraries and classrooms in the United States was restricted or diminished for either limited or indefinite periods of time, from July 1, 2021 through June 30, 2022. Some of these bans have since been rescinded and some remain in place.

PEN America defines a school book ban as any action taken against a book based on its content and as a result of parent or community challenges, administrative decisions, or in response to direct or threatened action by lawmakers or other governmental officials, that leads to a previously accessible book being either completely removed from availability to students, or where access to a book is restricted or diminished. Read more [here](#).

PEN America analyzed all relevant news stories on challenges, restrictions, and bans to school library books, curriculum, and classroom libraries anywhere in the United States during the 2021-22 school year. We consulted school district websites, corresponded with librarians, authors, and teachers, and reviewed letters to school districts organized by the [National Coalition Against Censorship](#) (NCAC).

PEN America's Index of SchoolBook Bans does not include every instance in which a book has been challenged, as not all such challenges have ended in bans. Rather, it offers a count of books banned in accordance with the definitions and categories described below.

Key for Index - Sorted by Author & Title and by State & District

General Book and Ban Information

<i>Primary Author</i>	First author listed on a banned book.
<i>Secondary Author(s)</i>	Additional authors listed on a banned book.
<i>Illustrator(s)</i>	All illustrators listed on a banned book.
<i>Translator(s)</i>	All translators listed on a banned book.
<i>Title</i>	The publisher given title of a banned book.
<i>State</i>	State where a ban has taken place.
<i>School District</i>	District where a ban has taken place.

Challenge Information

<i>Date of Challenge/Removal</i>	The approximate month and year when a book was first noted as removed or prohibited based on available public documents.
<i>Type of Ban</i>	Indicates one of four types of bans, including 'Banned from Libraries and Classrooms,' 'Banned from Libraries,' 'Banned from Classrooms,' or 'Banned Pending Investigation.'
<i>Banned in Libraries and Classrooms</i>	These represent instances where individual titles were placed off-limits for students in either some or all libraries and classrooms, and simultaneously barred from inclusion in curricula.
<i>Banned in Libraries</i>	These represent instances in which administrators or school boards have removed individual titles from school libraries where they were previously available. Books in this category are not necessarily banned from classroom curriculum. This category includes decisions to ban a book from one school-level library (e.g. a middle school) even if it is included in libraries for higher grades (e.g. a high school), or other forms of grade-level restrictions.

<i>Banned in Classrooms</i>	These represent instances where school boards or other school authorities have barred individual titles from classroom libraries, curriculum, or optional reading lists. These constitute bans on use in classrooms, even in cases where the books may still be available in school libraries.	
<i>Banned in Investigation</i>	These are instances where a title was removed during an investigation to determine what restrictions, if any, to implement on it. The Index records these bans, even if only temporarily enforced and even if books have ultimately been returned to shelves.	
<i>Origin of Challenge</i>	Indicates whether a reconsideration process that led to some kind of ban began with a formal, written challenge, or was initiated by another means by a school administrator, for example, in response to political, or parental pressure.	
The data in the Index of School Book Bans is a record of bans on books in schools during the 21-22 school year, using PEN America's Methodology described above. The Index is updated to reflect new information about book removals in this time period if it comes to light after publication.		
Since release of the Index of School Book Bans in Sept 2022 the following updates have been made:		
- October 2022: The month associated with book bans in Pennsylvania's Central York School district has been updated to August 2021.
